AGED MAN, GUEST IN LOOP HOTEL,

An attempt at suicide, the result, it is believed, of depression over finances, was made yesterday by Charles D. Whitcomb, 75 years old, a guest at the Morrison hotel. An Inspiring Example of Foresight

How 28,728 Chicago people have assured themselves 2,043,551.50 for next Christmas

N NOVEMBER 11th, 1922, our Christmas Savings Clubs were opened for membership—offering an easy and satisfactory way of accumulating money for

Christmas, 1923. The goal we had set for ourselves was 20,000 members. On January 15th, 1923, we found that our expectations had been exceeded by more than eight thousand members-a total of 28,728 individuals having joined our Christmas Savings Clubs. Their systematic savings will provide them \$2,043,551.50

with which to make next Christmas a truly joyous one. To us these figures are an impressive and inspiring example of foresighted thriftmore than twenty-eight thousand people, a goodly city in themselves, saving this

year more than two million dollars. What makes our Christmas Savings Clubs so attractive is the fact that they provide a simple, definite method of "saving for a purpose." There are many purposes for saving other than for Christmas, and there is no better way of gaining progress toward your objective than the opening of a savings account for your particular purpose.

Our Savings Departments offer a number of plans which many thousands of savers have found helpful and practical. We shall be glad to have you call and discuss these plans.

COCOANUT OIL FINE FOR WASHING HAIR

Many soaps and prepared shampoo contain too much free alkali. This drie the scalp, makes the hair brittle, and i very harmful. Mulsified cocoanut of shampoo (which is pure and entirely greaseless) is much better than any thing else you can use for shampooing as this cannot possibly injure the hair Simply put two or three teaspoonful of Mulsified in a cup or glass with a little warm water, then moisten the hair with water and rub the Mulsified in. It will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out casily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is very one in the family for months. Be sure your druggist gives you Mulsified.

OFFERS TO HELP

Mrs. Bowen, Attorney Smoot, and others have appealed to all the church federations in the city for support in their endeavors. A gigantic massmeeting of church people is planned, and will be announced within a few days.

They have also called upon Attorney General Edward J. Brundage, asking him to superzede State's Attorney Crowe in the vice situation, either through the regular grand jury or as part of the city hall quiz pending before the special school board grand jury. Mr. Brundage has the matter under advisement.

Judge McKinley has promised even the suggestions as to its preparation as either you or Mr. Smoot care to make.

"If we have not frankly and in the freindliest spirit, satisfactorily covered all the points in your letter and convinced you and your association of our best wishes for your success, we invite your further communication."

FOR AN ECONOMIC CONFERENCE AT WASHINGTON.

Two oninions chiefly prevail in the United States specting the military operations of France in nany. One opinion is that France is justified in her movement because Germany has willfully sarily defaulted upon reparation payments and that it is both expedient and right that France should force a change of policy at Berlin or seize available property in satisfaction routes to do us any good.

There is a third opinion which occupies a middle French are not convinced of this. the following as the standards for

an open air school: Fresh air-At least three sides of the school room are open, except for about two feet of wall. The closed side is that from which the very bad weather comes. In most places this means a school with a north wall, but open on the south, east, and west. Window curtains and screens may shut the greater

Food-A hearty, hot dinner is provided for each pupil. In addition, there is a morning lunch and a glass of milk at the end of the school day.

Rest-At least one hour is passed resting on cots. The rest hour is just before or just after the hot dinner. The chil-dren sleep or not, as they wish. Some children are given an additional half hour of rest at some other time of the

day, generally toward late afternoon. Clothing-Children in open air rooms are provided with extra clothing. Nothing is better for this purpose than the Klondyke suit formerly used in the Chicago schools. Instruction—The number of pupils per

teacher is limited to twenty-five. Much Medical and nursing service-Children amined by a physician and they get a visiting nursing service.

The requirements for open window rooms are as follows: An ordinary school room is designated well lighted room with a southern exposure, located on the second floor, is chosen. The windows are thrown wide lowered from the top. Drafts and storms are avoided by the use of screens. The temperature in an open window room is

Wraps-The children wear ordinary street wraps and gloves while seated in the school room. Special sitting-out suits are not provided.

-The school work is so arranged that it will cause the students to move around much more than they do in the ordinary school room.

Food_It is not the custom to provide food for children in open window rooms though the wise choice of food from the school lunchroom is encouraged and

stimulated.

Rest on cots-This is not provided for.

We have in the city facture is on the basis of the English of Chicago today over 300 of these insti-tutions, each controlling from 100 to

1,000 positions or more at all times, for which they ask from 50 to 60 per cast of the first month's salary, besides & of the first month's salary, besides a-manding a fee in advance, while the streets of Chicago are filled with no and women seeking employment who are unable to meet the demands of the profiteers. The operators of them are cles are not even content with the fa they receive, but in order to ha abundance of positions available at a times they have bribed the superintent ents, foremen, and employment manager of numerous concerns to see that the are generally a few positions open in their establishments. It is my humble opinion that the executives of many of our large commercial houses are not familiar with the methods employed by these men in the hiring of help. I he sure that any broad minded business man would not permit these tactics to be used. The remedy for this existing ed is the establishment of federal e ment bureaus, as suggested by Mr. Da vis, secretary of labor, in many of hi speeches. Repeatedly vengeance has been wreaked twice on the same victim. After Dean McGarry's young son was fatally burned Mr. McGarry's business premises were burned. Mrs. Wyse Power, a seriator, suffered two attacks. Senator Bagweil first lost his country house and then he was kidnaped. Almost daily haggard members of Ireland's aristocracy drift into Dublin's leading hotels en route to England. Their sole possessions are on their backs.

Plea to Irish in America.

The organized neutral members of the old Irish republican army who are torking for peace asked The Tribune to address the following appeal to brishmen in America:

"For more than seven months we have witnessed fratricidal strife among old comrades. We have stood aloof, deploring alike the executions and the wholesale destruction of property. We find that the assets of yesterday are the ruins of today, and, worst of all, we are convinced that bitterness is being engendered which cannot be eradicated and that a tradition of violence as a means of settling our inter-

washington, D.-C. Feb. 6.—[Special.]—Drafting of a bill amending the debt commission act to authorize the approval of the British agreement and also give the commission broad authority to make settlements with other nations on a similar basis was completed today by Representative Burton [Rep., O.], a member of the commission.

Mr. Burton said he would introduce the bill in the house tomorrow immediately following the receipt of a message from President Harding transmitting the report of the American commission.

The President, it was stated, will not attempt to include in his message the text of the proposed legislation, although he is expected to submit general recommendations that congress approve the British agreement and

Now her feet require ungainly shoes. Her high instep, a thing which can be maintained only so long as the bones remain properly placed, is gone. She requires wider shoes because the arch formed by the long bones of the toes has spread; she needs longer shoes because the long arch—from heel to toe—lengthens as the arch falls lower.

No Braces—No Arch Supports

POR the restoration of disfigured feet and broken arches no other method has proved so effective as the new Post System now used by the National Health Institute of Chicago. The process requires no appliances or medical application. It is a system whereby the bones of the disturbed foot and arch are placed in normal position by the hands of an expert, and you need never wear an artificial brace or septents again.

There is a difference in sugars

Sugars vary in quality, sweetening power and cleanliness. When you buy loose sugar in paper bags, you cannot know what you're getting. If your sugar has been exposed to dust, handling or insects, you have to eat it just as it is. You can't wash it or clean it.

For this reason, the safe way-and the economical way-to buy sugar is to order Domino Package Sugars. The sturdy Domino Packages bring you clean cane sugar of exceptional quality, always uniform and of the highest sweetening power. There cannot be any waste, spillage or exposure. Ask your grocer.

Package Sugars Important-

Every woman will appreciate our Sugar Etiquette Chart and the helpful book of Domino Syrup Recipes. We will gladly send you both of these, to gether with the interesting "Story of Sugar" and a book of gummed labels for your preserve jars. They are free upon request. BONUS

A month ago The Tribune announced, on advices from Springfield, that bonus claims would be paid by lot, and that there was no great advantage in filing applications at an early date.

Plan Has Been Changed!

The Service Recognition Board has now changed its plans, and claims will be paid in the order received. If you wish to file an application do it at once. Here are the steps to take:

1. Have a typewritten or "photostat" copy of your discharge or certificate of service made.

Blanks for this purpose will be furnished by The Tribune if you address the Friend of the Soldier, stating the branch of the service you were in and enclosing a stamped, addressed envelope. Or they may be obtained by calling at the Bonus Bureau in the main floor of The Tribune Building, Madison and Dearborn Streets. If you care to leave your discharge, The Tribune will have a copy made for you.

2. Have a notary certify to the accuracy of this copy of your honorable discharge or certificate of service.

Notaries employed by The Tribune will perform this service free of charge. Hundreds of notaries throughout the city have also volunteered to serve the veterans. Knights of Columbus free evening schools or American Legion Posts can furnish their names.

3. Fill out an application for the bonus on the official form. The official application blank may be secured by sending a stamped, addressed envelope to The Tribune, or by calling at the Bonus Bureau, Madison and Dear-

Other places for distribution of the blanks are County Clerk Robert M. Sweitzer's office in the county building and all active posts of the American Legion, the Spanish American War Veterans, Veterans of Foreign Wars, and other patriotic organizations in the city and county.

Swear to your application before a notary public. Notaries employed by The Tribune will administer the oath and affix their seals

5. Mail the CERTIFIED COPY of your discharge (not the original) and the application (duly sworn to) to the Service Recognition Board, Springfield, Illinois.

New YORK, Feb. 6.—[United News.]—If Mrs. Molla Mallory is sufficiently recovered from the attack of flu which put her out of the Heights indoor tournament last week, she will sail for Europe Saturday aboard the Olympic to meet Mile. Suzanne Lenglen again at Wimbledon.

This will be her second quest for the world title since she was prevented from winning a decision victory at Forest Hills nearly two years ago by Mile. Lenglen's sensational default.

There will be ten American women tennis players in the party.

ponsamp of the Chicago District Golf association will battle this year over the Indian Hill club course, June 23 to 30. The team championship will be stared at the Hinsdale Golf club Aug. I and the caddy championship at the Ravisloe club Aug. 6. The annual Club Relations day tournament will be held at the Exmoor Country club the latter part of September.

It was through the efforts of Chairman Robert A. Gardner of the tournament committee that these dates were arranged, and they were confirmed by the delegates. H. T. Spiesberger of the Northmoor club said he had come prepared to offer that course for the Club Relations day event but was glad to withdraw in favor of Exmoor.

Purchasing Bureau Expands.

The meeting last night, presided over by President Paul C. Loeber, was one of the best in the history of the organization, all of the discussions being interesting.

Chairman Macomber of the Green section, in telling of the work accomplished, said that the cooperative purchasing bureau had increased greatly in scope, consolidation having been effected with the St. Louis and Minneapolis and St. Paul associations.

Mr. Macomber stated that the Green section of the United States Golf association was planning a million dollar endowment fund and establishing testing grounds in different sections of the country in charge of competent men. He also reported that four of the lead-

There was no material pressure on wheat early, and an opening decline was followed by an advance to around the previous day's finish. The upturn was due more to lack of pressure than any sustained buying and later when commission houses started to sell they found the market poorly supported, May dropping 13/c from the early high and closed within a fraction of the bottom.

There was persistent selling of May and buying of July wheat by commission houses, which narrowed the difference to 5/c at the last, against 5/c at the finish Monday, although messages from Okiahoma indicated that snow had fallen in practically all sections of that state. New crop conditions, however, are attracting more attention. Liverpool closed 3/6/d higher in sympathy with the American advance the previous day. Export demand continues very slow,

Samples that weigh a hundred pounds

You can't carry a sample of a cook-stove or a porcelain bath-tub or an office desk from door to door. They are too big and heavy.

Also they belong to that class of merchandise which does not look its best unless set up in the place where it belongs and surrounded by the things that go with it. The way to show these articles is by pictures.

The ideal presentation is the thing itself, properly displayed in the window or on the floor of a store. But such displays are not always to be counted on.

In good pictures you can show your goods in fitting surroundings that enhance their appearance and make people want to see and touch the goods themselves.

Pictures that have this alluring quality are produced by very simple means. The better printers print such pictures on Better Paper.

Warren's Standard Printing Papers are manufactured to help printers give an adequate and satisfactory presentation of the message and merchandise of their advertiser-customers. The fact that your printer wants to use a Warren paper is good evidence that he wants to produce an exceptionally good piece of work.

GALVESTON, TEXAS, is the leading wheat shipping point in the United States and the greatest cotton port in the world. The local storage facilities are capable of handling the entire annual cotton output of Texas and Oklahoma, amounting to about 4,000,000 bales. The City's exports in 1921 were

valued at over \$550,000,000. Galveston's importance as a shipping center is greatly enhanced by four trunk line railroads, which traverse the large section of the Middle West served by the City. THESE BONDS, issued for school purposes, constitute direct obligations of the entire city and are payable from ad valorem taxes levied upon all of the

Just a word-to You-

Mr. Investor

Wouldn't you like to establish an IMMEDIATE ESTATE of from \$10,000 to \$150,000 (payable in cash) for your family and your own old age? Where you would never be required to pay the principal sum—just the interest.

Where you would share in the dividend earnings of a large Company and if YOU lived to old age and needed the money you could, after having had years of protection, call the deal off and take down the bulk of, if not all, the deposits

Or receive a monthly life income greater than the income the same investment would produce to you if it were invested in 4% gold bonds at compound interest for the entire period, provided you were 40 years of age or older at the time of entry (younger ages almost as good results).

In my 37 years of Life Insurance experience I consider this the finest Life Insurance Contract I ever offered, and practically at ordinary life rates—many ages less—backed by one of the best Old Line Companies in the business, now in its 44th year, with assets of over \$50,000,000.00.

It is open to professional and business men generally, all lines, who are preferred risks and not over age 60. For full information just phone or write. (Give age and occupation.)

CAPITALIZATION

\$7,200,000 9,026,600 £200,000

Note: The Shawinigan Water & Power Company owns the majority of the capital stock issued

These Bonds will be offered simultaneously in New York, Montreal and Paris; and at about the same time there will be offered in London the £200,000 of 64% Debenture Stock.

From information supplied us by the Company we summarize as follows:

Business: The St. Maurice Power Company, Limited, incorporated under the Companies Act, Canada, has been formed for the purpose of developing the water power formed by the Gres Falls, Gabelle and Forges Rapids on the St. Maurice River, about six miles below Shawinigan Falls, Province of Quebec.

To this end a plant of 120,000 horse-power installed capacity will be immediately constructed. It will operate under a head of 60 feet and will have an ultimate capacity of over 150,000 horse-power.

Security: These Bonds will be secured, in the opinion of counsel, by a direct first mortgage on all the properties of the Company, including the new hydro-electric plant, land, water powers, dam and transmission lines. The Gres Falls property is owned under absolute title; the Gabelle and Forges Rapids power is leased from the Province of Quebec for a term of 99 years from 1916. Owing to the favorable natural conditions, this development can be built at an extremely low cost and will be bonded for only about \$83 per horse-power on the initial installation of 120,000 horse-power.

Earnings: The Shawinigan Water & Power Company, under contract, agrees that for forty years from the first date of delivery it will purchase power available from the proposed development on terms that will yield the company sufficient net income to pay all operating expenses and taxes, as well as interest and sinking fund requirements on these Bonds outstanding. When the installed capacity of the hydro-electric plant is absorbed as provided in the contract net earnings will, it is estimated, be in excess of twice interest charges on these Bonds.

The Shawinigan Company, which controls one of the most complete and extensive groups of hydro-electric developments in the world, has an impressive earnings record:

The Shawinigan Water & Power Co. owns or controls on the St. Maurice River water powers of a capacity of 643,700 horsepower (including this development), of which 373,000 is now in use. It also owns about 900 miles of high tension transmission lines, and serves with electricity a total population of about 1,500,000, including the cities of Montreal and Quebec and a well diversified industrial district. The Company's history has been one of consistent progress, sales of electricity in 1922 being

Equity: As the rights and properties acquired by the Company in connection with the proposed development have been paid for to a considerable extent by the issue of the Company's common shares, there is a substantial equity behind these First Mortgage Bonds.

Sinking Fund: There will be a Sinking Fund of \$50,000 per annum from February 1st, 1930 to 1934; \$75,000 per annum from February 1st, 1935 to 1939, and \$100,000 per annum thereafter to maturity.

We offer these Bonds when, as and if issued and received by us. All legal details in connection with this issue will be approved by Messrs. Simpson, Thacher & Barelett, New York, and by Messrs. Lafleur, MacDougall, Macfarlane & Barelet, Montreal.

Southern Minnesota Gas and **Electric Company**

First Lien and Refunding Mortgage Gold Bonds Series "A"-61/2% - Sinking Fund

Dated December 1, 1922. Due December 1, 1942. Interest payable June 1 and December 1. Coupon bonds in interchangeable denominations of \$1,000, \$500 and \$100. Registerable as to principal only. Redeemable at the option of the Company as a whole or in part on any interest payment date upon thirty days' prior notice at 107½ and accrued interest to and including December 1, 1932, this premium of 5% decreasing at the rate of ½ of 1% on each June 1 thereafter. Principal and interest payable at The National City Bank of Chicago, Trustee, or at the option of the holder, at The Equitable Trust Company of New York. Interest payable without deduction for Normal Federal Income Tax not in excess of 2% per annum on the income derived from the bonds.

Pennsylvania and Connecticut Personal Property Tax not in excess of Four Mills, Massachusetts Income Tax not in excess of Six Per Cent on income derived from the bonds, and the present Maryland Securities Tax refundable to holders resident in those States, as provided in the Mortgage.

The following information is summarized by Mr. A. W. Higgins, President of the Company, from his letter, on file at our office, and from auditor's and appraiser's reports, and other reliable sources;

BUSINESS: Southern Minnesota Gas and Electric Company will own and operate gas and electric properties, furnishing without competition, gas, electric, and central-station sating service to Albert Lea and Owatonna, gas service to Rochester and electric service to more than forty other cities and villages in Southern Minnesota and Northern Iowa, serving in the aggregate a population of about 85,000. The entire territory is a rich agricultural, commercial and industrial region.

SECURITY: The First Lien and Refunding Mortgage Gold Bonds are to be secured by a direct mortgage on all property of the Company (except merchandise held for purposes of sale to its customers) now owned or hereafter acquired and subject only to the lien of certain underlying and divisional mortgage bonds, of which \$1,525,800 are outstanding with the public.

VALUATION: The valuation of the properties involved, as prepared by independent public utility engineers and appraisers, is largely in excess of the Company's entire funded debt. The issuance of additional bonds is subject to restrictions which insure the maintenance of a large margin of equity in physical assets over the bonded debt.

EARNINGS: For the year ended August 31, 1922, the Consolidated Earnings Statement of the properties to be owned and operated by Southern Minnesota Gas and Electric Company, show gross earnings of \$851,253, and net earnings of \$332,646.

After allowing for interest requirements on divisional and underlying bonds outstanding with the public the balance available for pay-ment of interest on this bond issue was nearly three times such interest requirements. The net earnings were equal to over 1.90 times total bond interest requirements on bonds of this issue and the divisional and underlying bonds.

These earnings were obtained from independent operation of certain of the properties and it is anticipated that net earnings will increase to a considerable extent as a result of consolidated and unified operation and management

SINKING FUND: The Company covenants to pay each year in cash as a Sinking Fund, beginning with June 1st, 1924, an amount equal to 2% of the par amount of bonds of this Series then outstanding, to be payable 1% on the first day of June and December of each year and to be applied only to the purchase or redemption and cancellation of bonds of this series.

The Company agrees to pay interest without deduction for any present or future Canadian tages, except income taxes upon residents of Canada, or for any United States income tax up to 2% which it may be required or permitted to pay.

The following information is taken from a letter of Sir William Price, President of the Company, copies of which may be had on request.

Price Brothers & Company's business was founded in 1817 in Canada, and is now controlled and managed by the Price family, which has been in continuous control for 106 years. The Company is one of the largest manufacturers of newsprint paper and groundwood pulp in Canada and owns valuable leases of pulp-wood timber limits, embracing about 8,700 square miles. The consumption of newsprint paper has increased for the last twenty years at an average rate of 8 per cent a year.

The Company has water power developments with a total installed capacity of 55.250 H. P., and its timber holdings are estimated to contain a supply for the operation of the Company's mills for 120 years, making no allowance for reforestation. Taking into account the benefits of reforestation, the raw material is estimated to be practically inexhaustible.

Net earnings of the properties of the Company and its subsidiaries, after taxes, etc., for the year ended February 28th, 1923 (two months of 1923 estimated) were over three times the annual interest charge of \$600,000 on its presently to be outstanding funded debt, and for the six fiscal years ended February 28th, 1923, not including the abnormally profitable year ended February 28th, 1921, have averaged over four times such interest.

The proceeds of the present issue will retire on May 1, 1923, all of an outstanding issue of \$4,554,616 bonds and provide funds for additions and

The bonds will be secured, in the opinion of counsel, upon completion of the present financing, by a direct First Mortgage on the real and immovable property of the Company and will be the Company's only funded

The present market value of the Company's outstanding capital stock is in excess of \$19,000,000.

Tested by a Century and a Half

A few years before the American Revolution, Frederick the Great estab-lished the Silesian Landschaft, the first rural credit system which involved the combination of government supervision and conservative mortgage liens on agricultural property.

For more than 150 years, the Landschaft System has survived every conceivable test of war, depression, panic and political revolution, no other form of German security proving as stable as the rural credit obligations. Extending gradually throughout Germany, this System later became the basis of rural credit methods in all the leading countries of the world.

The Joint Stock Land Bank Bonds, instrumentalities of the Federal Govern-ment, enjoy the same fundamental safeguards which have created so stable a demand for European rural credit

Consider the features of the Joint Stock Land Bank Bonds from an investment standpoint....

1—The oldest, most perfect security in the world—selected farm more security with the additional advantages of Federal supervision, the grouping of many more sees in one obligation, and the important element of increasing equity to the lender through the gradual reduction of the principal of each loan by amortization. 2-Total exemption from all taxes, except inheritance tax.

3—A broad, steady market, strengthened in many cases by the close connection of leading investment houses with the Joint Stock Land Banks whose bonds they handle.

Acceptable to secure Postal Savings and other deposits of Government funds and legal investments for saving banks and trust funds in more than thirty States.

5—The highest return obtainable from any investment exempt from all taxes in all States. The current yield from these bonds ranges from 4.50% to 4.65%.

The William R. Compton Company has taken an important part in the underwriting of selected Joint Stock Land Bank Bonds, and offers the issues of well managed Banks located in rich agricultural sections of the United States, which it has investigated and with which it is thoroughly familiar.

"Silver from Clay"

In the museums of a generation or two ago were small bars labeled "silver from clay." They were bars of aluminum—extracted from clay by a costly process involving the use of the previous

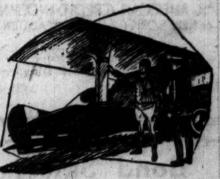

Sixty years ago aluminum was valued at \$160 a pound—though a pound was difficult to obtain at any price. In 1886, Castner discovered a cheap process of making metallic sodium. In 1894, using the electric power of Niagara Falls, he was able to separate common salt into its components of chlorine and sodium.

Meanwhile, a youth named Hall, a student in Oberlin College, working with crude apparatus—a small crucible, gasoline burner and galvanic battery—had discovered an electrolytic process of getting aluminum direct from the clay.

Two other young men—Alfred and Eugene Cowles—recognizing the com-mercial possibilities of the process, es-

tablished the Cowles Electric Smelting & Aluminum Company at Lockport, N. Y., in 1885.

Aluminum is today a commonplace. But not so well known is the increasing use of its alloys in machinery, particularly automobiles. Mixed with magnesium or calcium, alloys are made that are almost as light as aluminum and almost as strong as steel. Airplanes are made of it, even to the wing coverings.
And even for the terrific service of automobile connecting rods, aluminum alloys are found to stand up.

The use of aluminum is constantly increasing. It bids fair to rival steel in the extent and variety of its use. It has become a major necessity of life.

By far the largest producer of alum-inum is the Aluminum Company of

First Mortgage 61/2% Serial Gold Bonds

Conway Realty Company OF BOSTON, MASS.

(Guaranteed by the Conway Company)

Dated February 1, 1923. Due in annual series to February 1; 1937.

Security Guarantee

First mortgage on approximately 13 acres of land and modern industrial plants in Boston, Mass., and approximately 2 acres of land and industrial plants in Worcester, Mass. These properties are valued at \$1,313,403. The bonds are unconditionally guaranteed, as to both principal and interest, by endorsement of the Conway Company, which has a net worth (in addition to its investment in the Conway Realty Company) of \$3,817,875.18. The net assets behind these bonds are therefore approximately \$8,552 per \$1,000 bond.

Earnings

For the 10 years and 11 months ended November 30, 1922, before interest, depreciation and Federal taxes, the average annual net earnings of the Conway Company, guarantor of these bonds, have been \$260,542. Maximum annual interest on this issue is \$39,000.

Business

The Conway Company controls the Hallet & Davis Piano Co., the Simplex Player Action Co., the National Piano Mfg. Co., the Sylvester Tower Co., and the Wilcox & White Co. Through these subsidiaries it has an annual capacity of 15,000 pianos and player-pianos, 30,000 player actions, 42,000 sets of keys and 22,000 piano actions. These products have a practically world-wide distribution.
